- b) Process the order like normal and once complete you will need to capture the additional information as listed above.

Go to the “Additional Information” section on the order and complete the following fields:

	<u>Expedient Field Name</u>	<u>Dematic Purchase order information.</u>
1	Vendor Order No	Dematic Project Number
2	Vendor Invoice	Requisitioner
3	Agent Order No	Dematic Project Name

(NB: Agent order no has a limited number of characters. There may be times that the whole Dematic Project Name won't fit, just populate as much information as possible as it will still provide enough information for Dematic to match back to their system).
